Conference on Modeling, analysis, and approximation theory toward applications in tomography and inverse problems

February 3rd - 7th, 2018, in Braunschweig, Germany

The conference welcomes mathematical topics around photoacoustic tomography and related themes, in particular from modeling, analysis, and approximation theory.

The conference is part of a trilateral partnership between scientists from Ukraine, Russia and Germany founded by VolkswagenStiftung, but it is not restricted to.

Talks and posters are welcome.

Registration until November, 29th, 2017
please send an e-mail to d.langemann@tu-bs.de
