

## Mecklenburg Workshop

# Approximation Methods and Function Spaces

Hasenwinkel

Monday, March 16, to Friday, March 20, 2015

Dear Colleagues,

We cordially invite you and the members of your research group to participate in the Mecklenburg Workshop on “Approximation Methods and Function Spaces”.

This workshop continues a longstanding tradition of workshops held in northern Germany since the 1990s. This year’s focus will be on approximation methods, their complexity and relevance in computational harmonic analysis, numerical linear algebra and function space theory. We will further discuss applications in signal and image processing. The workshop is dedicated to the 60th birthday of our colleague Winfried Sickel from Jena.

The workshop will take place in the hotel „**Schloss Hasenwinkel**“ which is located northeast of the lake „Schweriner See“ ( <http://www.hasenwinkel.com/> ).

We kindly ask you to send the enclosed registration form to the address in Lübeck stated below. Please register as soon as possible, and definitely not later than

**December 10, 2014.**

The final version of the workshop schedule will be sent to the participants in February, 2015.

We look forward to hearing from you!

Yours sincerely,

Aicke Hinrichs, Jürgen Prestin, Tino Ullrich
